To view a list of all external data links in the spreadsheet, select **Edit > Links to External Files** on the Menu bar. Calc displays the Edit Links dialog (Figure 388).

### ✓ Note

The Edit Links dialog can display information about other links that were not created using the External Data dialog.

For links that have been created using the External Data dialog, you can access that dialog again by selecting the link on the Edit Links dialog and clicking the **Modify** button, or double-clicking the link. If you click **Break Link** and confirm that you want to remove the selected link, the previously-linked data becomes embedded in the spreadsheet. Click **Update** to refresh the linked data in the target file so that it matches that in the source file.
