Figure 216: Select Certificate dialog

## Signing multiple times with the same signature

In the past, LibreOffice prohibited creating multiple signatures by the same author on a document, because there was no semantic meaning of signing the same document multiple times. LibreOffice now provides a signature description, so multiple signatures from the same author are allowed, because each signature can have a different meaning.

When you select **File > Digital Signatures > Digital Signatures**, the dialog (Figure 215) lists existing signatures together with their description (if they have any).

When you click the **Sign Document** button, the dialog (Figure 216) for certificate selection now also asks for an optional description.
