

<b>Chapter 11 Sharing and Reviewing Spreadsheets.....</b>	<b>404</b>
Introduction.....	405
Sharing spreadsheets.....	405
Reviewing documents.....	407
Merging documents.....	413
Comparing documents.....	413
Saving versions.....	414
<b>Chapter 12 Macros.....</b>	<b>416</b>
Introduction.....	417
On Visual Basic for Application (VBA) compatibility.....	417
Using the macro recorder.....	417
Write your own functions.....	422
Accessing cells directly.....	431
Sorting.....	433
Overview of BeanShell, JavaScript, and Python macros.....	434
Working with VBA macros.....	440
Conclusion.....	442
<b>Chapter 13 Calc as a Database.....</b>	<b>444</b>
Introduction.....	445
Associating a range with a name.....	446
Sorting.....	456
Filtering.....	459
Useful database-like functions.....	468
<b>Chapter 14 Setting up and Customizing.....</b>	<b>472</b>
Introduction.....	473
LibreOffice options.....	473
Options for loading and saving documents.....	477
Calc-specific options.....	481
Default colors for charts.....	491
AutoCorrect functions.....	492
Customizing the user interface.....	493
Assigning macros to events.....	502
Adding functionality with extensions.....	502
Adding custom colors.....	503
<b>Appendix A Keyboard Shortcuts.....</b>	<b>505</b>
Introduction.....	506
Windows / Linux keyboard shortcuts.....	506
macOS keyboard shortcuts.....	515
<b>Appendix B Error Codes.....</b>	<b>523</b>
Introduction to Calc error codes.....	524
Error codes displayed within cells.....	525
General error codes.....	525
Alphabetical Index.....	528
