

If you apply underlining to a superscript text, the underlining is raised to the level of the superscript. If the superscript is contained in a word with normal text, the underlining is not raised.

- **Underline color** – select the color for the underlining. **Automatic** matches the font color.
- **Individual words** – applies the selected effect only to words and ignores spaces.
- **Relief** – select a relief effect to apply to the text. The **Embossed** relief makes the characters appear as if they are raised above the page. The **Engraved** relief makes the characters appear as if they are pressed into the page.
- **Outline** – displays the outline of the characters. This effect does not work with every font.
- **Shadow** – adds a shadow that casts below and to the right of the characters.
- **Emphasis Mark** – select a character to display over or below the entire length of the selected text.
- **Position** – specify where to display the emphasis marks.
- **Preview** – displays a preview of the current selection.
