

- **Page Layout**

- Select page layout properties such as paper size, portrait, or landscape orientation; how many pages are printed per sheet of paper; the order in which the pages are printed on a sheet of paper; and whether a border is drawn around each page.

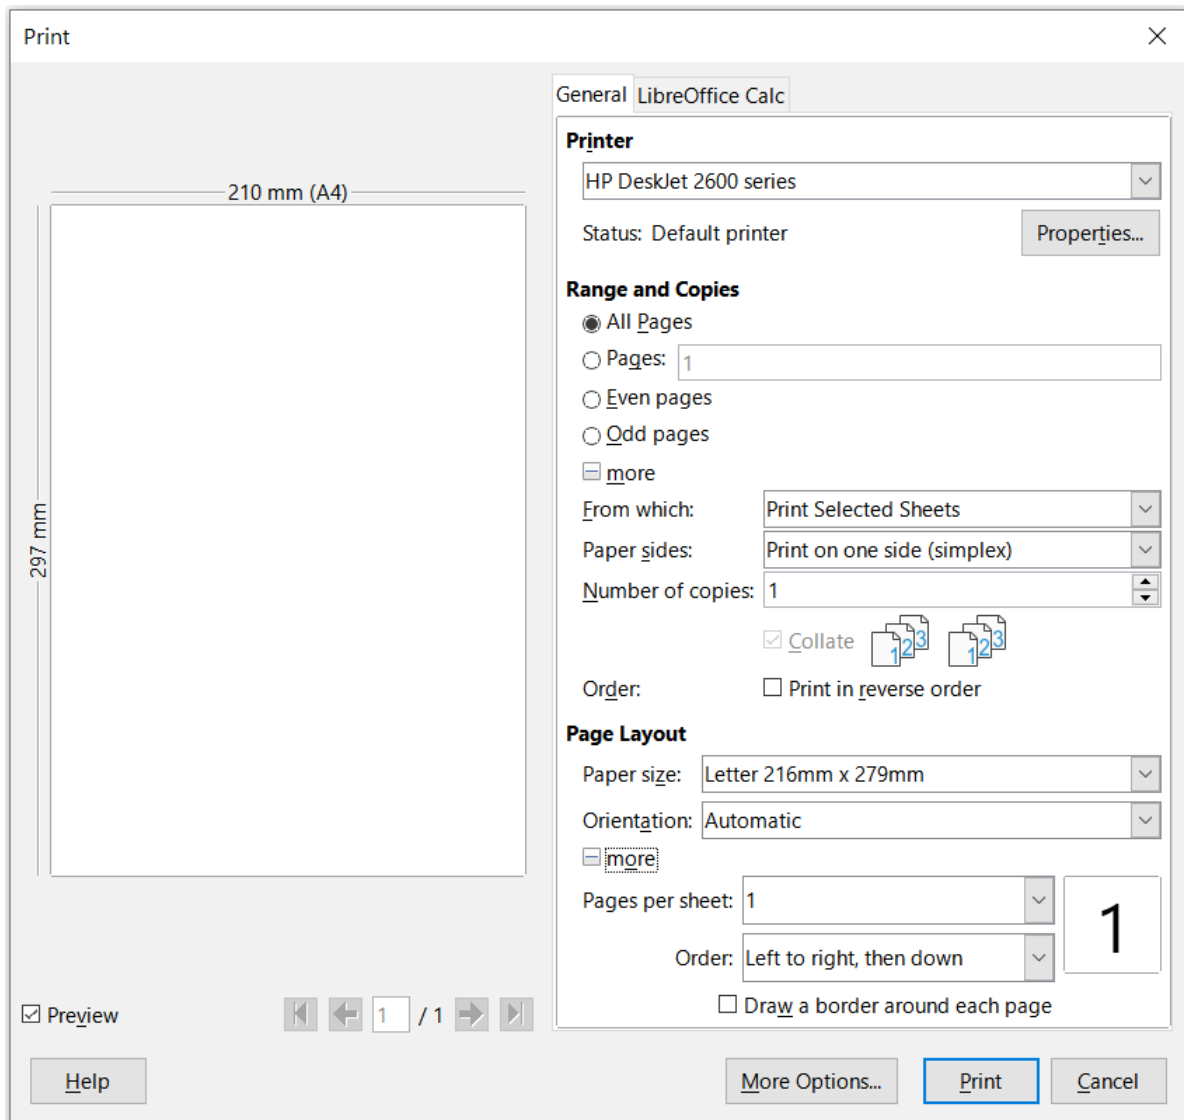

Figure 193: Print dialog – General tab

LibreOffice Calc tab

On the *LibreOffice Calc* tab of the Print dialog (Figure 194), you can select whether to suppress the output of empty pages when you print the spreadsheet.
