

## ✓ Note

This will change the color for all hyperlinks in all components of LibreOffice, which may not be what you want.

A button hyperlink is a type of form control. As with all form controls, it can be anchored or positioned by right-clicking on the button in design mode. More information about forms can be found in Chapter 18, Forms, of the *Writer Guide*.

## Opening hyperlinks

To open a text hyperlink carry out one of the following actions:

- Ctrl-click with the cursor positioned over the hyperlink. This option is only available if the **Tools > Options > LibreOffice > Security > Security Options and Warnings > Options > Ctrl-click required to open hyperlinks** option is selected.
- Left-click with the cursor positioned over the hyperlink. This option is only available if the **Tools > Options > LibreOffice > Security > Security Options and Warnings > Options > Ctrl-click required to open hyperlinks** option is not selected.
- Right-click with the cursor positioned over the hyperlink and select the **Open Hyperlink** option in the context menu.

To open a button hyperlink, left-click the button. This option is only available when the form design mode is deactivated; the status of this mode is controlled by clicking the **Design Mode** button in either the Form Controls toolbar or the Form Design toolbar.

## Hyperlink dialog

You can insert and modify hyperlinks using the Hyperlink dialog (Figure 379). To display this dialog, choose **Insert > Hyperlink** on the Menu bar, or click the **Insert Hyperlink** icon on the Standard toolbar, or press *Ctrl+K*.
