

<b>Code</b>	<b>Message</b>	<b>Explanation of the error</b>
519	No result (cell displays #VALUE!)	Formula yields a value that does not correspond to the definition, or a cell that is referenced in the formula contains text instead of a number.
520	Internal syntax error	Compiler creates an unknown compiler code.
521	Internal syntax error	No result.
522	Circular reference	Formula refers directly or indirectly to itself and the <b>Iterations</b> option is not selected under <b>Tools &gt; Options &gt; LibreOffice Calc &gt; Calculate</b> .
523	The calculation procedure does not converge	Financial statistics function missed a targeted value, or iterations of circular references do not reach the minimum change within the maximum steps that are set.
524	Invalid references (cell displays #REF!)	A column or row description name could not be resolved, or the column, row, or sheet that contains a referenced cell is missing.
525	Invalid names (cell displays #NAME?)	An identifier could not be evaluated; for example, no valid reference, no valid domain name, no column/row label, no macro, incorrect decimal divider, add-in not found.
526	Internal syntax error	Obsolete, no longer used, but could come from old documents if the result is a formula from a domain.
527	Internal overflow	References, such as when a cell references a cell, are too encapsulated or deeply nested. This is an internal error and should not be displayed in LibreOffice.
528 to 531	—	Not used.
532	Division by zero (cell displays #DIV/0!)	Division operator / if the denominator is 0. Some more functions return this error; for example: VARP with less than 1 argument STDEVP with less than 1 argument VAR with less than 2 arguments STDEV with less than 2 arguments STANDARDIZE with stdev=0 NORMDIST with stdev=0
533	Nested arrays are not supported	For example, “={1; {2}}”
538	Error: Array or matrix size	-
539	Unsupported inline array content	For example, “={1+2}”
540	External content disabled	Occurs when a function that requires (re)loading of external sources is encountered and the user hasn't confirmed reloading of external sources yet.
