Borders tab

Sets the border attributes for the selected cells.

- **Line Arrangement** – select a preset border style or define your own combination by clicking in the diagram.

- **Line** – select the line style, width, and color that you want to apply. The style is applied to the borders selected in the preview.

- **Padding** – specify the amount of space that you want to leave between the border and the contents of the cell. You can set each distance (left, right, top, bottom) individually or select **Synchronize** to apply the same padding to all four borders when you enter a new value.

- **Shadow Style** – applies a shadow effect to borders. You can specify the position of the shadow (bottom right, top right, bottom left, or bottom right), the distance it extends, and its color.
