

Note

If you want to use LibreOffice features that require Java, it is important that the correct 32-bit or 64-bit edition matches the installed version of LibreOffice. See the Advanced Options in Chapter 2 of this guide. If you do not want to use Java, you can still use nearly all of the LibreOffice features.

How can I contribute to LibreOffice?

You can help with the development and user support of LibreOffice in many ways, and you do not need to be a programmer. To start, check out this web page:

<https://www.libreoffice.org/community/get-involved/>.

May I distribute the PDF of this book, or print and sell copies?

Yes, as long as you meet the requirements of one of the licenses in the copyright statement at the beginning of this book. You do not have to request special permission. We request that you share with the project some of the profits you make from sales of books, in consideration of all the work we have put into producing them. Visit

<https://www.libreoffice.org/donate/> for instructions on how to donate to LibreOffice.
