

Figure 426: Control properties, Events tab

- 3) Click the browse icon by any event to open the Assign Action dialog (Figure 427).
- 4) Click the **Macro** button and select the macro from the list in the Macro Selector dialog (not shown). You return to the Assign action dialog. Repeat as needed, then click **OK** to close the dialog.

Macros can also be assigned to events relating to the form as a whole. To do this, right-click a form control in the document, select **Form Properties**, and click the *Events* tab.
