

If you have Complex Text Layout enabled (in **Tools > Options > Language settings > Languages**), an additional selection is available under the **Continuous facing** button: **First page is left** (normally, the first page is on the right when using the Continuous facing option).

User Interface tab of PDF Options dialog

On the *User Interface* tab (Figure 156), you can choose more settings to control how a PDF viewer displays the file. Some of these choices are particularly useful when you are creating a PDF to be used as a presentation or a kiosk-type display.

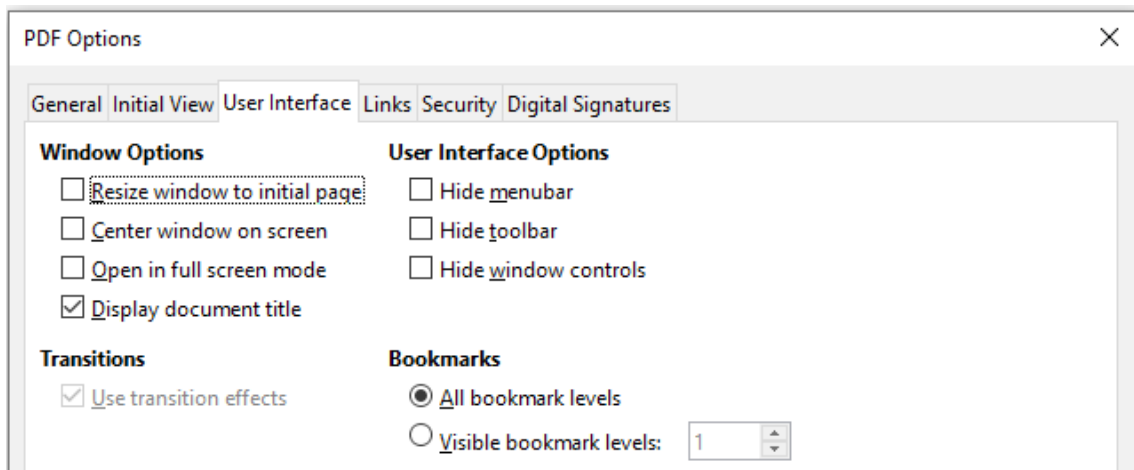

Figure 156: User Interface tab of PDF Options dialog

Window options section

- **Resize window to initial page.** The PDF viewer window will resize to fit the first page of the PDF.
- **Center window on screen.** The PDF viewer window will be centered on the computer screen.
- **Open in full screen mode.** The PDF viewer will open full-screen instead of in a smaller window.
- **Display document title.** The PDF viewer will display the document's title in the title bar.

User interface options section

- **Hide menubar.** The PDF viewer will hide the Menu bar.
- **Hide toolbar.** The PDF viewer will hide the toolbar.
- **Hide window controls.** The PDF viewer will hide other window controls.

Transitions

Not available in Writer.

Bookmarks

Select how many heading levels are displayed as bookmarks, if *Export bookmarks* is selected on the *General* page.

Links tab of PDF Options dialog

On the *Links* tab, you can choose how links in documents are exported to PDF.

Export bookmarks as named destinations

If you have defined Writer bookmarks, they are exported as “named destinations” to which Web pages and PDF documents can link.

Convert document references to PDF targets

If you have defined links to other documents with OpenDocument extensions (such as .odt, .ods, and .odp), the file extensions are converted to .pdf in the exported PDF document.
