

Example: Creating an index of figures

Creating an index (list) of figures or tables is easy if the figure captions were created using **Insert > Caption** or manually using a number range variable as described in Chapter 17, Fields.

- 1) On the Table of Contents, Index or Bibliography dialog, in the Type drop-down list, choose *Table of Figures*. You can change the title of the index to something else; we have used Table of Figures as our title.
- 2) Be sure **Captions** is selected in the *Create From* section, and choose the category of caption. The default for Category is Figure; in our example we have used Figure for the figure captions.
- 3) Under Display, you can choose *References* (to include the category, number, and caption text), *Category and Number*, or *Caption Text*. We have chosen References.
- 4) The other tabs of this dialog are similar to those described for tables of contents.

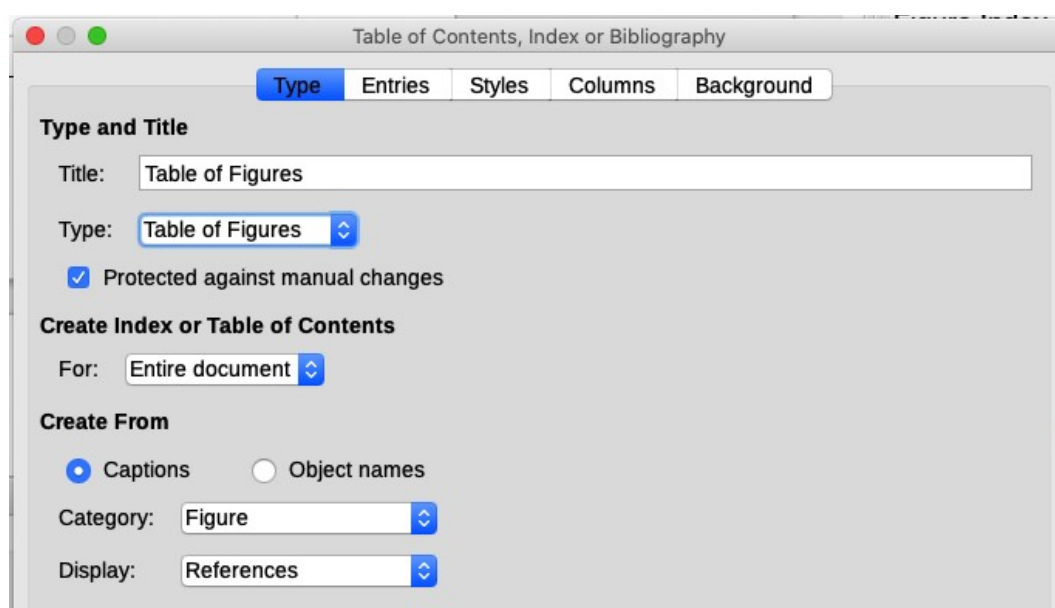

Figure 350: Creating other types of indexes

- 5) Click **OK**. The result is shown below.

Table of Figures¶	
Figure 1. Index/Table page of Insert Index/Table dialog box.....	8¶
Figure 2. Assign Styles dialog box.....	10¶
Figure 3. Entries page of Insert Index/Table dialog box.....	11¶
Figure 4. Hyperlink in table of contents.....	13¶
Figure 5. Styles page of Insert Index/Table dialog box.....	15¶
Figure 6. Access an index from the Navigator.....	17¶
Figure 7. Configuring the Annexes outline numbering.....	18¶
Figure 8. Outline & Numbering page for the level 1 annex headings.....	19¶
Figure 9. A table of contents with main body and annex numbered.....	20¶
Figure 10. Inserting an index entry.....	21¶
Figure 11. Entry icon on Insert toolbar.....	22¶
Figure 12. Index/Table page of Insert Index/Table dialog box.....	24¶
Figure 13. Entries page for creating an alphabetical index.....	26¶
