- 5) Click anywhere in a free space or press *Esc* to apply your changes.

## Editing a Fontwork object

Now that the Fontwork object is created, you can edit some of its attributes. To do this, you can use the Fontwork toolbar, the Formatting toolbar, or menu options as described in this section. If the selected Fontwork object is a 3D object, you can also use the 3D-Settings toolbar.

### Using the Fontwork toolbar

Make sure that the Fontwork toolbar, shown in Figure 261, is visible. If you do not see it, go to **View > Toolbars > Fontwork**. Click the icons to edit Fontwork objects.
