

Figure 28: Context menu for grammar errors

In the second section of the menu is the suggested correction. Clicking this changes the text to the suggestion. The example to the right appears blank, but clicking here removes the extra space causing the error.

In the third section of the menu you can choose to ignore the indicated error, or to open the Spelling and Grammar checker, shown in Figure 29. The example displays the URL that will take you to more information on the error indicated.

In the final section of the menu, you can set the language for the selection or the paragraph.

English sentence checking

Additional grammar checking rules can be selected through **Tools > Options > Language Settings > English sentence checking**, or through **Tools > Extension Manager > English spelling dictionaries > Options**.

On the **English Sentence Checking** page, you can choose which items are checked for, reported to you, or converted automatically. Select which of the optional features you wish to check.

After selecting the additional grammar checks, you must restart LibreOffice, or reload the document, for them to take effect.
