Figure 414: Select controls and align to top

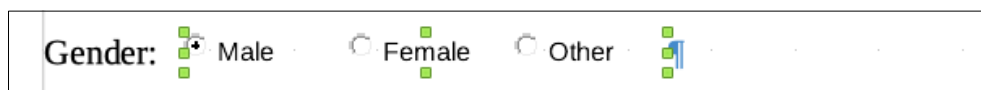

Figure 415: Result of action to align controls

List box

To add the list of choices to the list box, do this:

1) Be sure **Design Mode** is **ON** and **Wizards** are **OFF**. Double-click the List Box control to open the control's Properties dialog (Figure 417). Select the *General* tab.

2) Scroll down to find the List Entries text input box. Type the names of the shapes (Circle, Triangle, Square, Pentagon) one at a time. After each, press *Shift+Enter*, as shown in Figure 416.

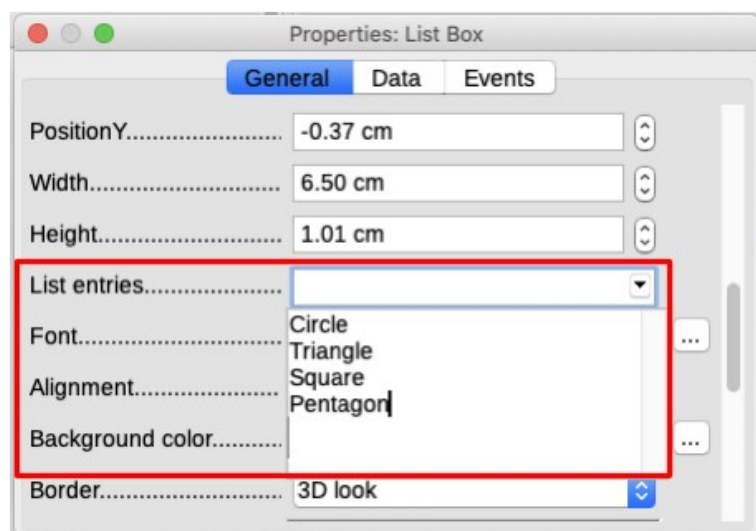

Figure 416: Entering the terms for a list

When you click away from the List entries box in the dialog, you should see a line saying "Circle";"Triangle";"Square";"Pentagon" (Figure 417).
